

VOTE **ALI** FOR EDMEDSOC **SECRETARY**

Hey guys, I'm super interested in medical education, and would love to be part of EdMedSoc!

Ideas

- Matching up older students to offer teaching/supervisions to younger students while in the same placement location
- Trying to organise more teaching from final years + junior doctors in the evenings in Cambridge. Would be good to have a refresher on each CPC (new course) a few weeks after the fact, for example.
- Working out an 'unofficial' syllabus for the new course for each year, organised by priority.

Also, I have a typing speed of 154 WPM so I reckon I'd be a good secretary. Please vote for me xx
