

Vice President

Events Officer

Having been part of last years committee I am already well versed in the breadth of great work EdMedSoc does and would relish the chance to stay involved.

I organised the popular Expert Teaching Panel and have many future ideas including how to make Medical Education part of your career.

I will bring enthusiasm, experience and existing email banter with Dr Barclay to the role! I know a bit about how all the numerous schemes work, have carried out SIM training and am keen to pitch in with everything.

Josh Wade for EdMedSoc
